

5TH ASIA-OCEANIA CONFERENCE ON GREEN AND SUSTAINABLE CHEMISTRY (AOC GSC-5): CAPABILITIES

Date

15-17 January, 2015

Venue

India International Centre
New Delhi, India

CONFERENCE THEMES

The conference is focused to showcase the capabilities 'Green Chemistry' can offer to the world for harnessing the same product and services but through a greener route. The Green Chemistry conference this year has been categorized under following themes:

1. Green Chemistry and Health
2. Sustainability and Industrial Processes
3. Green Chemistry Education
4. Advancing Global Green Chemistry: Collaborations among academia, government and industry

ABOUT THE CONFERENCE

The 5th Asia-Oceania Conference on Green and Sustainable Chemistry (AOC GSC-5), promoted by the Royal Society of Chemistry, London, and organized by the Green Chemistry Network Centre, New Delhi, and The Energy & Resources Institute (TERI), New Delhi, will be held on 15-17 January, 2015 to discover and discuss the Capabilities in Green Chemistry for Sustainability

The previous editions of the conference have been organized in various global locations, each with a different theme some being 'Expansion' in Beijing AOC-2 (2009), 'Innovations' in Melbourne AOC-3 (2011), and 'Opportunities' in Taiwan AOC-4 (2013). The theme of this year's conference is 'Capabilities' that seek to showcase the capabilities of green chemistry for providing the sustainable solutions to global citizens.

DEADLINES (FOR REGISTRATION AND ABSTRACT SUBMISSION)

Applications are invited for Registration and Abstract submission. **Early registrations will attract discount.** Submissions of Abstract may be made from 1 July, 2014 onwards till **31 October, 2014.**

Registrations and abstract submissions may be made at www.teriin.org/events/aoc5.

The conference chairpersons Dr Alok Adholeya and Prof. R K Sharma welcome you to New Delhi, India
